Search Notes

Dear Examiner Bartely:

Please find attached the results of your search for the above-referenced case. The search was conducted in Dialog, Proquest, and EBSCOhost.

I have listed *potential* references of interest in the first part of the search results. However, please be sure to scan through the entire report. There may be additional references that you might find useful.

If you have any questions about the search, or need a refocus, please do not hesitate to contact me.

Thank you for using the EIC, and we look forward to your next search!

Alerting Abstract DE A1

NOVELTY - The operating method has a mobile radio connection established between a mobile radio device (3) and a server (2) linked to the electronic amusement machine (1), allowing entry of a PIN identification number, upon reception of a request from the server. The entered PIN identification number is evaluated at the server, for identifying the user and supplying information to the control unit of the amusement machine, allowing a credit value to be logged in the machine so
